Yes

### Describe your business, product or service and what differentiates it from your competitors.

The business that I currently running is in the design field. I consult, design, sew and create uniquely individualized garments for clients with on going events. My skills are limitless so I design anything from formal evening wear such as wedding gowns, gala attire, and bridal wear for women, men, and children. With have over 10 years of experience in the field I have been fortunate to build upon the skills I have from my cultural background along with the standards set forth by the practices used into he states. Most designers only have experience sewing and creating with the background of how Americans or how Africans create, but I've been fortunate to be exposed to the traditional sewing practices in the states while elevating the cultural designs that I grew up with. With having both backgrounds it sets my business apart because we then have the capability to create an eccentric piece for each client.
